

chekov combines modern electronic music with Jazz improvisation: Spheric sound collages of samples, loops, and beats and live bass and drums form the basis for the improvisation of guitar and other instruments. The electronic ingredients are triggered live via midi floorboard from a laptop, so that everything happening on stage in fact is live!

In contrast to solely electronic music, the iterative loops and samples – *there's joy in repetition* – merge with the live band into a dynamic and vital ensemble. The combination of these stylistic means – repetitive electronic loops and Jazz improvisation – makes the sound of the band.

chekov *takes you on a sonic space trip with sol 8, to ambient & groovin' sound-galaxies you have never imagined to be able to experience*

chekov is:

Atze Ton - bass/laptop/composition

Gerd Mendel – guitar

Adam Muschielok – flute/sax

Tobi Wiedenmann – drums

André Schwager - Keys

and

Ilja Knezovic – live Visuals
